All Ohio Purchasing Report & Metrics

2021-2022 School Year

Feed Our Future is a cross-sector collaboration of organizations and individuals that work together to ensure that ALL children, regardless of their school district, have access to fresh, healthy, and when available local foods. A critical component to this work is making it as easy as possible for school districts to buy local foods within federal procurement policies and procedures.

participating in Feed Our Future

Since 2015, Feed Our Future and Ohio Schools Council have innovated a farm to school bid that supports local food procurement by school districts across Northeast Ohio. The bid focuses on fruits, vegetables, and value added products with local ingredients, and provides the infrastructure and opportunity needed by school districts to buy local foods.

In 2020, Southwest Ohio received funding to adopt the Feed Our Future model, which focuses on turnkey solutions, including 1) working within bidding cooperatives to increase the amount of local food purchased easily by schools, 2) narrowing the range of products to focus on what grows well in our region and what schools want to serve, and 3) marketing support.
